CSU San Bernardino (2014)
B.S Computer Engineering

Experience

Nifty Island   Remote   Mar 2022 - Present
Senior Frontend Engineer

Spearheaded the transition of a React application to NextJS, enhancing performance and decreasing time-to-deploy by implementing a unified build strategy for various environments. Engineered an extensive testing framework that reduced regressions and boosted code quality. Architected component library used across multiple front-end projects

`NextJS` `TypeScript` `React` `React Testing Library` `Cypress` `Web3`

LARB   Remote   Volunteer   Sep 2023 - Nov 2023
Frontend Engineer

Helped implement a new design for Los Angeles Review of Books' website following their developer's lead.

`TypeScript` `React` `NextJS` `TailwindCSS`

CleanSpark   Remote   Oct 2019 - Mar 2022
Senior Frontend Engineer

Enhanced the flagship product's production codebase, ensuring top performance for a publicly traded company, and developed testing strategies, including unit, integration, and end-to-end tests. Additionally, played a role in refining and deploying a React Native project, aiding its seamless integration.

`TypeScript` `React` `Redux` `React Testing Library` `Cypress` `React Native`

ESP Personnel   Jun 2014 - Oct 2019
Web Developer

Enhanced client communication by integrating a ReactJS client profile with the third-party CRM system, accelerated development processes through the creation and management of reusable JavaScript libraries for proprietary RESTful APIs, and improved call-center productivity with click-to-dial functionality in the phone system.

`React` `Redux` `React Testing Library` `Cypress` `C#` `SQL`

Projects

CVBuzz

cv.buzz

A web application that allows business owners and entrepreneurs of the Coachella Valley to create a one-page business profile and share it anywhere.

`Side Project` `TypeScript` `Next.js` `Material UI` `Firebase`

CV Food Map

cvfood.vercel.app

A platform that allows users to map and share restaurants and bars in the Coachella Valley.

`Side Project` `TypeScript` `Next.js` `Shadcn/TailwindCSS` `Firebase`

Salton Sea Science

saltonseascience.org

Volunteer project to help community members and scientists to share and access information about the Salton Sea.

`Volunteer` `Next.js` `TypeScript` `Material UI`
